

Mountain Valley is looking for new host home providers. This is an opportunity to provide care for a client in your home. It requires a strong commitment to the people served by having them live in your home; however, it also provides an opportunity to really provide excellent care to the clients we serve.

If you have a great attention to detail and are willing to help clients to work toward their goals on an individual basis, this might be a great opportunity for you.

We are currently seeking someone to serve two clients in their home. While the care is 24 hours a day, 7 days a week, the reward can be huge - emotionally and financially as well.

Mountain Valley is still involved in Safety, Training and Medical Administration. Clients will need their own bedrooms.

The compensation is as follows. Note, this is tax-free compensation.

SIS Level 1: 2044.36/month (for one person)

SIS Level 2: 2791.80/month (for one person)

SIS Level 3: 3108.44/month (for one person)

If you are interested in this or would like to learn more, please contact Michelle Dabrowski at (970)945-2306.
